PROFILE

I am a web/software developer with a diploma in Computer Systems Technology and a certificate in Full Stack development. I enjoy working on complex problems where I can apply my knowledge and previous experience.

TECHNICAL SKILLS

Languages / Libraries / Database / Version Control:

Ruby On Rails, Express.js, Java EE, HTML/CSS/Bootstrap, ASP.NET MVC and Core, Linux, C++, Android, React, SQL, PostgreSQL, Git, GitHub

- Used SQL to implement and query relational database outcomes.
- Experience in creating desktop and mobile friendly websites.
- Familiar with proper OO programming, GUI, abstract classes, polymorphism.
- Wrote C++ programs using functions, polymorphism, templates, and exception handling.

PROJECT EXPERIENCE

The Journey
Feb 2018

Site: https://awesome-journey.herokuapp.com/
The Journey is a web application that allows users to manage trips by organizing routes, adding notes, and tracking their expenses. Users can share their trip ideas with others, as well as looking up other trip ideas by searching tag names. Visitors to the site are able to see a lists of trips based on popularity and most used tag names.
Built using Ruby On Rails, Ajax/jQuery, JavaScript, Chart.js, Google Map API, ActiveRecord, PostgreSQL, Bootstrap, HTML/CSS
Source Code: github.com/rinahong/portfolio-the-journey

TechCore
Jan 2018

Site: https://techcore-meetup.herokuapp.com/
This collaborative application allows users to create an organization page, which is used to advertise upcoming events and related news. I was responsible for integrating News API, search features and CRUD events.
Built using Ruby On Rails, jQuery, and Google Map API, ActiveRecord, PostgreSQL, Bootstrap, HTML/CSS, News API, Git with GitHub for collaborative version control
